

We offer an innovative solution to integrate renewable energies in commercial and industrial buildings

A TURNKEY SOLUTION

1 SAVE ON YOUR ENERGY COSTS

A project carried out with **vadiMAP** allows significant savings with paybacks of only a few years.

2 MAKE YOUR BUILDINGS MORE RESILIENT, SELF-SUFFICIENT AND ENERGY-SMART

A project carried out with **vadiMAP** makes your buildings more resilient to power outages while reducing your losses related to the operations of your company. Depending on how essential your operations are, you will be offered total or partial autonomy.

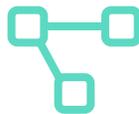

3 REDUCE YOUR CARBON FOOTPRINT

A project carried out with **vadiMAP** supports your ecological mission and responsibilities as a corporate resident. All elements of the project seek to emphasize sustainable and local development. The entire vadiUS team shares this pride in contributing for future generations.

THE BENEFITS:

A single solution provider for all your buildings, regardless of their geographic location.

Accelerated decision-making guided by advanced algorithms.

A feasibility analysis for a fraction of the time and cost with the **vadiMAP** prescription.

USE CASE - PHARMACY

CONCERNS

A pharmacy is worried about power outages because they have products that must be kept cold such as drugs and vaccines; a 4-hour outage can cost \$ 50,000. They also have servers with customer data that they don't want to lose due to power flickers.

We took care to prescribe the optimal nanogrid configuration in its geographical, operational and technical contexts.

OPTIMAL SYSTEM

Selected with **artificial intelligence**

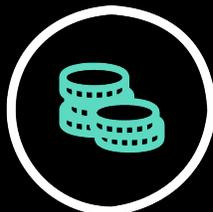

30 kW and **107,8 kWh** of energy storage

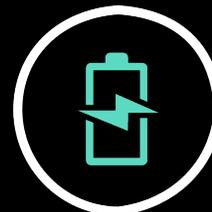

UPS function for the servers

BENEFITS

6 years of payback time
\$ 14,500 of savings each year

Backup Power for more than **6 hours** of outage
