FOR IMMEDIATE RELEASE

vadimUS Delivers Breakthrough Investor Presentation at Venture Summit West

SAN FRANCISCO – vadimUS recently became one of only 100 companies worldwide to earn a coveted presentation slot at the 10th annual Venture Summit West. The Silicon Valley-based event connects founders of the hottest venture backed, emerging and early-stage companies with an exclusive audience of venture capitalists, corporate investors, private investors, investment bankers, and strategic partners.

Venture Summit West, presented by youngStartup Ventures, is the premier industry gathering for promising companies in tech, fintech, cleantech, medtech, lifesciences, and healthcare. With thousands of attendees each year and over 100 featured investors with over \$250B under management, Venture Summit West is the event where significant deals are made. For vadimUS, it is a rare opportunity to connect with investors, share their vision, and secure the funding they need to continue their important work.

“We are thrilled to be part of such a prestigious event and look forward to sharing our unique vadiMAP solution to potential investors.” said Dan Boucher, Chief Executive Officer of vadimUS

Venture Summit West accepts presenters who meet strict criteria based on industry, stage, business model, size of the target audience, milestones achieved to date, and whether the company would be of interest to the featured investors. The presentation programs are geared toward emerging growth companies looking to gain visibility among active investors and raise capital.

About vadimUS

vadimUS is accelerating transformation in the energy industry through its vadiMAP solution for renewable energy integration for commercial and industrial customers. Recognized by leading organizations including the Solar Impulse Foundation, the solution provides an easy path forward for building owners and operators looking to reduce their carbon footprint, as well as improve operational and financial outcomes.
